Assistant Professor of Statistics – Search #67571  
College of Science and Mathematics – Department of Mathematical Sciences – Statesboro campus

The Department of Mathematical Sciences in the College of Science and Mathematics invites applications and nominations for the position of Lecturer of Statistics. This position will be located on the Statesboro campus.

In January 2017, the University System of Georgia Board of Regents voted to consolidate Armstrong State University and Georgia Southern University. The new, 27,000-student university will be named Georgia Southern University with campuses in Savannah, Statesboro, and Hinesville. The expected timeline for the first entering class will be fall 2018. Complete details are available at http://consolidation.georgiasouthern.edu/.

Within this setting, the Department of Mathematical Sciences contributes significantly to the mission of the University through scholarly endeavors, engagement of students, and outreach to the community and the profession. The department, which has 50 full-time faculty members on the Statesboro campus and 20 full-time faculty members on the Armstrong campus, offers courses in mathematics, mathematics education and statistics, and has undergraduate programs in mathematics and a certificate program in actuarial science. The Statesboro campus offers a Master of Science program with concentrations in Pure and Applied Mathematics, Statistics, and Computational Science. The department features an energetic faculty with active colloquia and seminar series, including a Distinguished Lecture Series. In addition, many faculty members are active in professional organizations, some serving in leadership positions at the regional and national levels. It is expected that the successful candidates will strengthen these initiatives.

Position Description. Reporting to the department chair, the Assistant Professor of Statistics requires teaching, research, and service responsibilities and a terminal degree. The position centers on strengthening the department's undergraduate and graduate programs and includes teaching undergraduate and graduate courses, supervising master's degree candidates, producing quality scholarship, writing grant proposals, and performing institutional and professional service. The successful candidate will also be expected to provide consulting expertise to the general university community. The position is 9-month, tenure-track appointment, and the salary is competitive and commensurate with qualifications and experience.

Required Qualifications:
- Earned doctorate in statistics or a closely related field by August 1, 2018.
- Evidence of a strong commitment to undergraduate and graduate education with demonstrated effectiveness in statistics instruction.
- Demonstrated commitment to a strong, sustained research program with strong potential for securing external research funding.
- Good command of written and spoken English.

Preferred Qualifications:
Outstanding applicants in all areas will be considered but preference will be given to applicants with research interests that complement those of the current faculty.

Screening of applications will begin March 2, 2018 and continue until the position is filled. The preferred position starting date is August 1, 2018. A complete application consists of a letter addressing the qualifications cited above; a curriculum vitae; three professional references; an unofficial transcript of all graduate work; a brief description of a commitment to excellence in teaching; and a brief description of planned research and scholarly activities. Applications (including at least three letters of recommendation with one addressing the candidate’s teaching) must be submitted through www.MathJobs.org. Only complete applications submitted through MathJobs will be considered. Finalists will be required to submit to a background investigation. Applications and nominations should be sent to:
