Constantine Stokolos of Ernst and Young will visit GSU on Friday, April 30, at 2:30 in Mathematics and Physics, room 3314 and give an informal presentation on

"A Path to Machine Learning, Data Science and Deep Learning" followed by Q & A.

He will discuss his personal path, both professional and academic, and how the two complement each other. This is a great opportunity for students to get advice regarding their own career aspirations.

Constantine earned an MBA from Georgia Southern University (2012) and MS in Applied Statistics from Kennesaw State University (2014).
